

Establish a True Enterprise Risk Management Program

Risk registers somehow being misunderstood as the be-all end-all for so many risk management implementations. The so-called risk management implementations even end up becoming just another layer of bureaucracy. Advance further to reap the true benefits of risk management!

**Malaysian

and Resilience**

Puncak Nilam
Management Services
Sdn Bhd (1189447-D)

Merely having risk registers everywhere in an organization is not the expected outcome of ERM, let alone risk management.

Worse, not only that typical risk management implementations also being misunderstood to only revolve merely around the updating of risk registers, they often become additional layers of bureaucracy instead of improving corporate efficiency and effectiveness.

Attribute # 1	ERM-Based Approach	PNMS' Governance, Risk Management and Compliance Services will help streamline, integrate and embed risk management processes into organizations' business processes, reducing the burden that often being piled up unto small risk management teams, and help evolve the organizations' risk management maturity to the next level.
Attribute # 2	ERM Process Management

Attribute # 4	Root Cause Discipline	
Attribute # 5	Uncovering Risks	
Attribute # 6	Performance Management	
Attribute # 7	Resiliency and Sustainability	

Source: RIMS

Why us? PNMS comprises actual risk practitioners (ex-risk officers) who not only know what are the standards to use and how they are applied and used in organizations, but also who understand the nuances and challenges in implementing risk management programs in organizations. A large portion of our services are also HRDC-claimable.
